RE: Rolling Hills Generating---draft air Permits-to-Install and NPEDS Permit Modification

The Vinton County Commissioners urge Ohio EPA to grant the necessary permits for Rolling Hills Generating Station's conversion. The investment in the facility, the job opportunities from the construction, and the full time positions created at the plant will aid economic growth in Vinton County.

Rolling Hills has been a part of Vinton County since 2003. The company has proven its worth not only as a provider of well-paying jobs, but also as a generous community partner. In the last ten years, Rolling Hills has supported area food pantries, scholarships, school sports, and local civic organizations. Contributions from the company assisted in the purchase of a fire truck and construction of a new fire station in Wilkesville.

Please contact the Vinton County Board of Commissioners at 740-596-4571 if you would like to discuss this matter further. We look forward to progress in the permitting process.

Thank you,

Michael Bledsoe  
Tim Eberts  
Jerry Zinn
